GLOBAL ACTION

Conference and Lobby Day in Washington, DC
November 11th-13th, 2007

Be one of 1,000 people telling U.S. Congress that the Democratic Republic of Congo matters to us. Together we can raise our voices to help the people of the Congo.

Make it happen. Come to Congo Global Action's 2007 Conference in Washington, DC. Just like the conference participants in Brussels, we must show the world that we care about Congo!

Join us as we advocate for the Democratic Republic of Congo, demand increased local and international response and expand the movement for Congo. The themes of the Conference and Lobby Day will include "*Saving Lives*," "*Keeping People Safe*," and "*Ending Economic Exploitation*."

Your participation will improve the collective response to Congo's crisis!

To REGISTER or for further information, send your name and contact information to our e-mail address: drc.coalition@yahoo.com. We will send you more information about the conference and instructions on where to send the \$25.00 registration fee.
